

BRANDON LEE

Program Manager | PMO Architect | Technical • Operational • Strategic
Austin, TX • 425.445.6259 • lee.brandon.anthony@gmail.com • [LinkedIn](#) • [Portfolio](#)

SUMMARY

Program Manager and PMO Architect with 15+ years driving operational, technical, and strategic execution — spanning release management, project launch, systems thinking, infrastructure development, and cross-functional delivery across Enterprise SaaS, Climate Tech, and EV SaaS. Proven track record managing release calendars, ticket lifecycle governance, and platform infrastructure — building automation that cuts reporting overhead 40–60% and maintaining 99%+ SLA with zero P0/P1 incidents. Bridges silos across engineering, operations, logistics, product, and senior leadership — unifying technical and non-technical stakeholders into a single execution layer. Specializes in tool-heavy, ambiguous environments requiring structured intake management, operational and infrastructure governance, and data-driven decision support at all leadership levels.

CORE COMPETENCIES

Strategic PMO & Governance: PMO Architecture & Operating Models • Portfolio Management • Roadmaps & OKRs • Release Governance • Risk & Dependency Management • Executive Reporting • P&L Accountability • Agile & Waterfall • Change Management • Vendor Management

Technical Program Leadership: Technical Requirements & System Design • SDLC Alignment • API & Integration Governance • SLA & Incident Management • Cross-Functional Stakeholder Leadership

Systems Thinking & Data Operations: Operational Dashboards & Command Centers • Multi-System Integration • KPI Tracking & Analytics • Process Optimization & Forecasting • Single Source of Truth • Data Reconciliation

AI Automation & Platforms: Generative AI (Claude, GPT-4) • Agentic Workflows • LLM API Optimization • AI Cost Governance • SQL/Python (ML & Forecasting) • Jira • Monday.com • Confluence • Salesforce • SAP • Slack • Stripe • Asana • Smartsheet

PROFESSIONAL EXPERIENCE

Strategic Program Manager — Advisory & Transformation

Oct 2024 – Feb 2026

PORTFOLIO: (Series A/C — Tech & Enterprise SaaS | Austin, TX)

- Managed a portfolio of 15–20 concurrent projects; documented and automated end-to-end workflows, cutting reporting cycles by 40% and replacing 70%+ of manual data reconciliation and status-tracking processes.
- Consolidated 12+ fragmented data sources into a unified single source of truth, reducing decision latency by 40% and enabling real-time portfolio health visibility across engineering and operations.
- Orchestrated Monday.com + Jira integration to build an AI-driven portfolio intelligence layer; achieved 90%+ workflow compliance across hardware engineering teams through structured change management rollout.
- Designed and deployed automation core covering data reconciliation, status tracking, and report generation — eliminating majority of manual overhead across the portfolio.

Strategic Program Manager

Mar 2023 – Jun 2024

KT IMPACT, LLC — Stealth Startup (EV SaaS) | Austin, TX

- Built 0-to-1 platform infrastructure and PMO using Hybrid Agile at Scale; reduced time-to-launch by 35% across 10+ customer deployments.

- Optimized AI model configurations (Claude, GPT-4) for production reliability; cut downtime 22% (8.5% → 6.6%) while sustaining 99%+ SLA across all deployments.
- Enforced scope discipline across executive reporting, vendor governance, and roadmap planning; maintained budget control and delivery alignment through full program lifecycle.

Program Manager — Strategic Initiatives & Operations

Aug 2021 – Mar 2023

RECYCLOPS (Tech Enabled — PaaS — LaaS — Gig Economy Platform)

- Architected 0-to-1 enterprise Command Center supporting NPI across 25+ markets, unifying Operations, Logistics, Engineering, Product, and Delivery into a single AI-driven Jira + Monday execution layer; delivered expansion 60% ahead of roadmap with zero P0/P1 incidents.
- Replaced ad-hoc execution with formal governance — introduced dependency mapping, go/no-go gates, and readiness frameworks; cut launch cycles by 50% and standardized cross-functional delivery at scale.
- Implemented Monday.com as orchestration layer across Slack, Jira, and Stripe; improved cross-market visibility and reduced stabilization time by 30%, establishing Series B operational maturity.
- Architected cross-silo platform infrastructure spanning customer operations through field logistics; eliminated ~60% of accumulated technical debt to enable scalable multi-market operations.
- Developed LLM-powered predictive algorithms and scenario-modeling pipelines optimizing operational rhythm and resource allocation; delivered 18% cost reduction with sub-4-month ROI.
- Led hybrid Waterfall–Agile–Lean rollout model across 25+ markets; achieved **95%+ uptime** and operational maturity required for Series B fundraising readiness.

Project Manager — Corporate Sales Enablement & Operations

Jul 2020 – Aug 2021

YETI (Outdoor Products, DTC/B2B) | Austin, TX

- Facilitated Salesforce CPQ workflows, reducing quote-to-cash cycle time by 25% and eliminating revenue leakage across B2B and DTC channels.
- Integrated Salesforce and SAP data into a centralized Tableau reporting layer; improved forecast accuracy from 78% to 91% across sales planning cycles.
- Standardized sales enablement workflows across 6 business units, improving cross-team alignment and reducing manual reconciliation by 40%.

Project Manager → Product Owner — Operations & Digital Transformation

Mar 2010 – Sep 2018

FIFCO USA (Consumer Products, CPG) | Seattle, WA

- Consolidated legacy systems into modern e-commerce CMS/CRM platforms; drove 28% revenue growth through phased digital transformation program.
- Owned product P&L and feature portfolio; exceeded revenue targets through OKR-driven execution and cross-functional product roadmap ownership.

EDUCATION & CERTIFICATIONS

MBA, Information Technology Management

Western Governors University — Expected May 2026

BA, Communications (Minor: Business)

University of Washington

Active Certifications:

Google Project Management • Google Data Analytics • Agile Project Management

Targeted 2026:

PMP • PgMP • Lean Six Sigma
